Form 481, Section 900 Tribal Lands Reporting

Sub-Sections 920 - 923 Tribal Government Engagement Obligation

Table Top Telephone Company, Inc. wrote to Mr. Ben Shelly, President of the Navajo Nation, requesting a meeting to discuss how Table Top Telephone could better service the Navajo Nation's telecommunications needs. After receiving no response, telephone calls were made as a follow up to the letter but there was no response to our message. Copies of the letter and associated notes are attached.

Sub-Sections 924 - 928 Rights of way processes, land use permitting, facilities siting, environmental and cultural preservation review processes

Attached is a copy of a grant of easement for right of way issued to Table Top Telephone Company by the office of Navajo and Hopi Indian Relocation New Lands Branch. This document is an example of Table Top's compliance with this sub-section 924.

To the extent construction activity takes place on Tribal land, Table Top Telephone follows the rules and regulations, processes and procedures, as identified in the Code of Federal Regulations, Title 25, Part 169, and those that may be required by the following entities: Bureau of Indian Affairs, Navajo Nation authorities, and the Office of Navajo and Hopi Indian Relocation New Lands Branch. Table Top is not aware of any violations with regards to activities addressed under sub-sections 925 - 928.

Sub-Section 929 Tribal Business and Licensing requirements

Table Top Telephone Company provides service within the serving area by authority of our CPCN issued by the Arizona Corporation Commission. As a condition to providing service on Navajo Nation lands, Table Top Telephone has received a Certification of Authority to transact business within the Navajo Nation. A copy of this certifying document is attached for reference.

Dear Mr. Shelly,

My name is Matthew Boos, General Manager of Table Top Telephone and I am willing to request a meeting with you. As technology needs change, Ponderosa wants to be in a position to serve the Navajo Nation. While we hope we have been successfully servicing your telecommunications needs, the Federal Communications Commission has asked us to review a few specific items with you to insure we are accomplishing our mutual goals. To this end, we would like to have this first discussion with you.

We suggest the following topics as a starting point for our conversation:

- Needs assessment and planning to your anchor institutions,
- Feasibility and sustainability planning,
- Rights of way, permitting, licensing, facility placement, environmental and cultural preservation processes, and
- Development of culturally sensitive marketing materials to your members

I look forward to your reply. You may contact me directly via telephone at 559,868,6322 or via email at mjboos@ponderosatel.com to schedule a time to meet.

Best regards,

Matthew J. Boos

GRANT OF EASEMENT FOR RIGHT-OF-WAY

KNOW ALL MEN BY THESE PRESENTS:

That the United States of America for and on behalf of the Indian Owners of the lands described in Exhibit A hereof, acting by and through the Executive Director, Office of Navajo and Hopi Indian Relocation, Flagstaff, Arizona, hereinafter referred to as "Grantor", under authority contained in Public Law 99-190 and Public Law 93-531, as amended by Public Laws 96-305 and 100-666, and pursuant to the provisions of the Act of February 5, 1948, (62 Stat. 17, 25 U.S.C. §323-328), and Part 169, Title 25, Code of Federal Regulations, does hereby grant to:

Table Top Telephone Company hereinafter referred to as "Grantee," an easement for right-of-way for the following purpose(s), namely: construction of a telephone system over, across, in and upon the following described lands located in the County of Apache, State of Arizona. The said easement, as described in Exhibit A, attached hereto, is limited to and more particularly described as:

Thru Navajo Tribe Trust Lands located in the Section 10, Township 19 North, Range 27 East and Lot 4 of Section 30, Township 19 North, Range 27 East, Gila and Salt River Meridian, Apache County, Arizona. Further description as shown on attached Exhibit A.

This easement is subject to any valid existing right or adverse claim, is limited to a 99 year term ending on May 20, 2110 PROVIDED, that this right-of-way shall be terminable in whole or in part by the Grantor for any of the following causes upon 30 days written notice and failure of the Grantee within said notice period to correct the basis for termination (25 CFR 169.20):

- A. Failure to comply with any term or condition of the grant of the applicable stipulations shown in Exhibit B.
- B. A non-use of the right-of-way for a consecutive two year period for the purpose for which it was granted.

- C. An abandonment of the right-of-way.
- D. Failure of the Grantee, upon completion of construction, to file with the Grantor an affidavit of completion pursuant to 25 CFR 169.16.

The conditions of this easement shall extend to and be binding upon and shall inure to the benefit of the heirs, representatives, successors and assigns of the Grantee.

IN WITNESS WHEREOF, Grantor has executed this grant of easement this 24 day of 5, 2011.

STIPULATIONS FOR RIGHT-OF-WAY

1. Written Notification of Major Activity Status

Grantee will furnish written notification to the Commissioner as follows:

- a. A minimum of five (5) working days prior to commencement of construction, seeding and major soil-disturbing maintenance on the right-of-way.
- b. A maximum of 10 working days following completion of construction, seeding and major maintenance.

2. Confinement of Activities to Right-of-Way

All vehicular traffic will be confined to existing roadway and/or within the right-of-way as granted, except as provided in Section 4 below or as specified by the Commissioner.

3. Line and Road Locations

Where possible, the utility will be constructed adjacent to the area cleared for an access road and/or other right-of-way. Other routes will be used, if necessary, to minimize visual impact as authorized by the Commissioner.

4. Roads Only Where Necessary

In areas where the right-of-way does not have permanent access, roads will not be constructed within the right-of-way when terrain will allow vehicles to maneuver without such roads.

5. Clearing and Grading

Clearing, grading and other soil and vegetation disturbance will be limited to the minimum required for construction. Clearing of brush or shrub-type vegetation beneath aerial will be limited to severing the tops of that vegetation. Established vegetation will be removed only where necessary for the construction of roads, buildings, poles, towers or other surface structures. In no event will herbicides be used without the written permission of the Commissioner.

6. Tree and Brush Disposal Requirements

Unless otherwise specified by the Commissioner, the following tree and brush disposal requirements shall be in effect:

- a. All cleared woody material 4 inches in diameter or less inside the bark at the small end will be considered as brush or slash and disposed of by piling and burning at a safe distance from surrounding vegetation or by chipping in portable chippers unless other disposal methods are specified.
- b. All straight cleared woody material between 4 and 7 inches diameter inside the bark at the small end will be trimmed of smaller branches, cut into straight 7 foot pieces and piled on or adjacent to the right-of-way for utilization by the Navajo people.
- c. All straight cleared woody material 7 inches or more in diameter inside the bark at the small end will be trimmed of all limbs and branches, sawed into 16 feet 6 inches straight saw log lengths and piled into log decks at locations accessible by logging trucks and loaders.
- d. All other woody materials will be disposed of in accordance with Section 6a above. Grantee shall obtain a burning permit from the ONHIR before burning any debris, trees or brush in forested areas.

7. Trenches and Excavations

Trenches and other excavations shall be left open for the minimum period of time compatible with construction requirements. Materials removed during construction must be backfilled or disposed of in such a manner as to prevent concentration of water runoff which would cause accelerated erosion and prevent rows or piles of rubble or large rock that would hinder movement of livestock or big game animals or detract from scenic attributes.

8. Depth and Coloration of Underground Utilities

Underground utilities will be covered to a depth of 3 feet or as specified by engineering standards and requirements, whichever is greatest. Where such depths are not feasible, the utility shall be placed on or elevated above the surface as specified by engineering standards and requirements. When placed on or above the surface, the utility will be painted to blend with the natural surroundings using the indicated cover type:

Forest and Woodlands: Green

Fed. Std. No. 595 34127

Sagebrush:

Gray

Fed. Std. No. 595 36357

C.I.E. Measurement x. 3264 y. 3411 Y.3659

Badlands:

Brown

Fed. Std. No. 595 30318

C.I.E. Measurement x. 3557 y. 3960 Y.3368

When such painted surfaces occur near roads and/or may be a safety hazard, a reflective or bright color shall be used.

9. Source of Cushioning Material

Pad dirt or cushioning material will be taken only from borrow pits authorized by the Area Director if not available within the utility right-of-way.

10. Road, Fence and Livestock Barriers

When the utility is to be placed under or over a BIA or State road right-of-way, the method of crossing shall be approved by the Commissioner or appropriate State Highway Department in advance of construction. Existing fences crossed by the right-of-way will be braced and tied off before cutting so as to prevent slacking of the wire. The opening will be closed temporarily as necessary during construction to prevent the escape of livestock and upon completion of construction the fence will be repaired to its original condition. If construction destroys a natural barrier used for livestock control, the gap shall be fenced to the satisfaction of the Commissioner and land user.

11. Maintenance of Reclamation of Roadways

Roads constructed and used for utility construction, maintenance and operation will be maintained twice each year with grading and cleaning of drainage structures. All roads constructed exclusively for construction purposes will be closed to vehicular traffic and rehabilitated after construction is completed as directed by the Commissioner unless otherwise specified by that official.

12. Water Bars

Grantee will place water bars on disturbed areas as required by the Commissioner. The following is a general guide for water bar spacing:

<u>% Slope</u>	<u>Spacing Interval</u>
Less than 2 1/2%	200 ft.
2 1/2	150 ft.
6% to 9%	100 ft.
10% to 15%	50 ft.
More than 15%	30 ft.

13. Revegetation

Within one (1) year from the completion of construction, the Grantee shall seed disturbed areas designated by the Commissioner with plant species specified by that official. In addition, the Commissioner may require the following revegetation operations at Grantee's expense:

- a. Exclude domestic livestock from reseeded areas with fencing.
- b. Apply fertilizers as needed for vegetation establishment.
- c. Reseed and refertilize as needed for vegetation establishment.

14. Maintenance of Improvements

All existing improvement affected by construction and maintenance of right-of-way facilities shall be maintained in servicable condition at all times.

15. General Right-of-Way Maintenance

Grantee shall maintain right-of-way to the satisfaction of the Commissioner for the duration of the right-of-way. Such maintenance shall include, but not be limited to soil stabilization, removal of litter and maintenance of a clear and healthy environment.

16. Restoration Upon Right-of-Way Relinquishment

Upon relinquishment of this right-of-way, the Commissioner may require the removal of all aerial, surface and subsurface facilities from the right-of-way and reclamation operations, including but not limited to contouring cross-ripping and revegetation.

17. Raptor Protection

Aerial powerlines shall include all applicable design features described in the publication "Suggested Practices for Raptor Protection on Powerlines" available from:

Raptor Research Foundation, Inc.
Department of Zoology - 167 WISD
Brigham Young University
Provo, Utah 84601

The use of design features not included in this publication must be acceptable to the Commissioner.

The Commissioner reserves the right to require modification of or additions to all powerline structures placed on the right-of-way if the Navajo Tribal Fish and Wildlife Service determines such modifications or additions are necessary to insure the safety of raptor or birds of prey. Grantee shall assume full financial responsibility for the cost of such modifications or additions.

DEFINITIONS (Cont'd)

ORIGINAL

Subscriber

A person or agency subscribing for telephone service. As used in this Tariff, a separate subscriber is involved at each location, or continuous property, where service is furnished. One individual or firm therefore may be considered as two or more separate subscribers, even in the same Exchange. The privileges, restrictions, and rates established for a subscriber to any class of service are limited to the service at one location; no group treatment of service at separate locations furnished to one individual or firm, is contemplated or to be implied, except when definitely provided for in the schedules. (T)

Tariff

The document filed by the Company with the Public Utilities Commission which lists the communication services offered by the Company and the associated rates and charges.

Telephone Station

A suitable telephone instrument, consisting of a transmitter, receiver, and associated apparatus, so connected as to permit transmitting of and receiving telephone messages.

Tie Trunk

A circuit connecting two P.B.X. systems for the purpose of intercommunicating between the stations connected with such P.B.X. switching apparatus. The circuit is not intended to provide for general exchange service through either of the P.B.X. systems with which it connects.

Toll Message

A message from a calling station to a station located in a different local service area.

Toll Service

Telephone service rendered by the Company between patrons in different local service areas in accordance, with the rates and regulations specified in the Company's Toll Tariff.

Trunk

A telephone communication channel between (a) two ranks of switching equipment in the same central office, (b) between central office units in the same switching center, or (c) between two switching centers.

Revision Date 2010

To the Board of Directors
Table Top Telephone Company
Ajo, Arizona

We have audited the financial statements of Table Top Telephone Company for the year ended June 30, 2012, and have issued our report thereon dated October 26, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, and 7 CFR 1773, Policy on Audits of Rural Utilities Service (RDUP) Borrowers. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

In planning and performing our audit of the financial statements of Table Top Telephone Company for the year ended June 30, 2012, we considered their internal control over financial reporting in order to determine our auditing procedures for the purpose of expressing an opinion on the financial statements and not to provide assurance on the internal control over financial reporting.

Our consideration of the internal control over financial reporting would not necessarily disclose all matters in the internal control over financial reporting that might be material weaknesses under standards established by the American Institute of Certified Public Accountants. A material weakness is a significant deficiency, or combination of significant deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or combination of control deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis.

We noted certain matters involving the internal control over financial reporting and its operation that we have reported to the board of directors of Table Top Telephone Company in a separate letter dated October 26, 2012.

7 CFR 1773.33 requires comments on specific aspects of the internal control over financial reporting, compliance with specific RDUP loan and security instrument provisions, and other additional matters. We have grouped our comments accordingly. In addition to obtaining reasonable assurance about whether the financial statements are free from material misstatements, at your request, we performed tests of specific aspects of the internal control over financial reporting, of compliance with specific RDUP loan and security instrument provisions, and of additional matters. The specific aspects of the internal control over financial reporting, compliance with specific RDUP loan and security instrument provisions, and additional matters tested include, among other things, the accounting procedures and records, materials control, compliance with specific RDUP loan and security instrument provisions set forth in 7 CFR 1773.33(e)(2), related party transactions and investments.

In addition, our audit of the financial statements also included, where applicable, the procedures specified in 7 CFR 1773.38-.45. Our objective was not to provide an opinion on these specific aspects of the internal control over financial reporting, compliance with specific RDUP loan and security instrument provisions, or additional matters, and accordingly, we express no opinion thereon.

No reports (other than our independent auditors' report and our independent auditors' report on internal control over financial reporting and on compliance and other matters, both dated October 26, 2012) have been furnished to management.

Our comments on specific aspects of the internal control over financial reporting, compliance with specific RUS loan and security instrument provisions, and other additional matters, as required by 7 CFR 1773.33, are presented below.

COMMENTS ON CERTAIN SPECIFIC ASPECTS OF THE INTERNAL CONTROL OVER FINANCIAL REPORTING

We noted no matters, other than those discussed in our report on internal control over financial reporting and on compliance and other matters dated October 26, 2012, regarding Table Top Telephone Company's internal control over financial reporting and its operation that we consider to be a material weakness, as previously defined, with respect to:

- The accounting procedures and records.
- The process for accumulating and recording labor, material and overhead costs, and the distribution of these costs to construction, retirement and maintenance or other expense accounts.
- The materials control.

COMMENTS ON COMPLIANCE WITH SPECIFIC RDUP LOAN AND SECURITY INSTRUMENT PROVISIONS

At your request, we have performed, where applicable, the procedures enumerated below with respect to compliance with certain provisions of laws, regulations, contracts and grant agreements. The procedures we performed are summarized as follows:

- Procedures performed with respect to the requirement for a borrower to obtain written approval of the mortgagee to enter into any contract, agreement or lease between the borrower and an affiliate for the year ended June 30, 2012, of Table Top Telephone Company:

COMMENTS ON COMPLIANCE WITH SPECIFIC RDUP LOAN AND SECURITY INSTRUMENT PROVISIONS (Continued)

- Obtained and read a schedule of new written contracts, agreements or leases entered into during the year between the borrower and an affiliate as defined in 7 CFR 1773.33(e)(2)(i).
- Read board of directors' minutes to ascertain whether board-approved written contracts are included in the schedule.
- Noted the existence of written RDUP approval of each contract listed by the borrower.
- Procedure performed with respect to the requirement to submit RDUP Operating Report to the RDUP as addressed in 7 CFR 1773.33(e)(2)(ii):
 - Agreed amounts reported in RDUP Operating Report to Table Top Telephone Company's records.

The results of our tests indicate that, with respect to the items tested, Table Top Telephone Company complied, except as noted below, in all material respects, with the specific RDUP loan and security instrument provisions referred to below. The specific provisions tested, as well as any exceptions noted, include the requirements that:

- The borrower has obtained written approval of the RDUP to enter into any contract, agreement or lease with an affiliate as defined in 7 CFR 1773.33(e)(2)(i).
- The borrower has represented its RDUP Operating Report has been submitted to the RDUP. The Operating Report, "Financial and Statistical Report," as of December 31, 2011, is in agreement with the Table Top Telephone Company's records at June 30, 2012, except for certain timing differences. These records were subjected to the auditing procedures applied in the audit of the financial statements for the year ended June 30, 2012.

COMMENTS ON OTHER ADDITIONAL MATTERS

In connection with our audit of the financial statements of Table Top Telephone Company, nothing came to our attention that caused us to believe that Table Top Telephone Company failed to comply with respect to:

- The reconciliation of continuing property records to the controlling general ledger plant accounts addressed at 7 CFR 1773.33(c)(1).
- The clearing of construction accounts and the accrual of depreciation on completed construction addressed at 7 CFR 1773.33(c)(2).
- The retirement of plant addressed at 7 CFR 1773.33(c)(3) and (4).
- The approval of the sale, lease or transfer of capital assets and disposition of proceeds from the sale or lease of plant, material or scrap addressed at 7 CFR 1773.33(c)(5).

COMMENTS ON OTHER ADDITIONAL MATTERS (Continued)

- The disclosure of material related party transactions, in accordance with FASB ASC 850, "Related Party Transactions," for the year ended June 30, 2012, in the financial statements referenced in the first paragraph of this report addressed at 7 CFR 1773.33(f).
- The detailed schedule of investments.

DETAILED SCHEDULE OF INVESTMENTS

The Company has made no investments in affiliated companies through June 30, 2012.

This report is intended solely for the information and use of the board of directors and management of the Company, the Rural Development Utilities Program and supplemental lenders, and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.
